dedicated to finding a cure

The Juvenile Diabetes Research Foundation International

(JDRF) was founded in 1970 by parents of children with Type 1 (juvenile) diabetes, who were convinced that, through research, the disease could be cured.

Today JDRF is the world's leading nonprofit, nongovernmental funder of diabetes research.

On behalf of all of us working toward a cure, we thank you for your support.

Enclosed is my gift of \$ _____

In Honor of _____ In Memory of _____

Occasion (Birthday, Get Well, Congratulations, etc.) _____

Please Notify _____ From _____

Address _____ Address _____

Include my name on the recipient's acknowledgement.
